

<http://www.monperrus.net/martin/using+computer+modern+type1+fonts+with+openoffice+on+linux>

This is a test file to determine:

- 1) which fonts are rendered best by your PDF viewer
- 2) which fonts you prefer

This PDF file has been produced with OpenOffice.org v3.0.1 on Linux. All fonts have size 12.

Computer Modern (cm-super version) - type1 <--- Latex like

The quick brown fox jumps over the lazy dog é ê à ß
